## The Confidence Game

Rules of the game:

- a. Each question must be answered WITH AN INTERVAL.
  - b. You should choose your interval so that you are **"90% confident"** (whatever that means to you).
  - c. You CANNOT use any reference tools (i.e., no cell phones or computers to find answers).
  - d. A question is "correct" if the true answer is inside your interval.
  - e. The winner is determined by who got the most questions correct. In the case of a tie, the person whose intervals were narrower is the winner.
- 

- 1) In what year did Mickey Mouse make his film debut?
- 2) What is the lowest temperature (in degrees Fahrenheit) ever recorded in California?
- 3) During the year 2014, how many television series were aired?
- 4) How far away, in miles, is the Earth from the Moon?
- 5) What is the greatest number of children officially recorded that were all born to one mother?
- 6) In what year did Orville and Wilbur Wright, more commonly known as the Wright brothers, make the first-ever powered flight in their self-built plane?
- 7) As of June 2015, how many songs by music artist Rihanna have reached the Number 1 spot on *Billboard's* "Dance Club Hits" chart?
- 8) How many years have actors Will Smith and Jada Pinkett Smith been married?
- 9) How many hours will it take to complete a cross-country road trip from Los Angeles to New York City, according to Google Maps?
- 10) How many baseball fans can attend game at Dodger Stadium during any given day?
