## **Make Your Own Decision Tree**

## Directions:

- 1. Use the **training data** and blank decision tree provided below to create your own classification tree to help separate the NFL players from the USMNT players.
- 2. Start at the top of the decision tree and write yes/no questions in each of the nodes/boxes.
- 3. Continue to draw additional nodes/boxes to either write more questions or to classify a player.
- 4. Once you have completed your tree, sort the 6 players from the test data (on page 2) using your classifications and record them in the data table. Afterwards, your teacher will reveal who each player actually is, and you can determine how many you classified correctly.
